

Health and Safety Policy

The overall company objective of Burridge is to ensure the health, safety and welfare of our employees, contractors, clients, visitors, the public and others who may be affected by our works.

We are committed to the prevention of injury and ill health and as such Burridge shall ensure that:

- Tools and equipment are provided and maintained to ensure they are safe and without health risks.
- Provision is made for the safe use, handling and storage of articles and substances.
- Information, instruction, training and supervision is provided to all employees to ensure their health and safety.
- The workplace is maintained to ensure that it is safe and without health risks, including the means of access and egress.
- Adequate facilities and arrangements are provided for employees' welfare.
- Safe Isolation procedures will be observed when working on electrical systems. The procedures will be communicated and enforced for all Burridge employees and subcontractors.

Burridge is committed to continual improvement and will undertake the following actions:

- Ensure sufficient resources are available to meet the objectives & targets of the management system
- Ensure sufficient resources to, as a minimum, comply with current applicable legislation and other OH&S requirements to which Burridge subscribes.
- Communicate the management systems so it is understood and implemented by all employees.
- Ensure all employees are aware of their individual occupational health and safety obligations and seek the support and co-operation of employees with respect to occupational health and safety.
- Provide suitable opportunities for employer / employee consultation.
- Maintain company systems for the ongoing identification of hazards, the assessment of risks, and the implementation of necessary control measures.
- Make this occupational health and safety policy available to interested parties.

Signed:
Phil Burridge
Managing Director
